

Aluminum Blade Fence Modern Design Door Black Vertical Flat Noodles Fence Privacy Garden Vertical Flat Noodles Fence

Our Product Introduction

Basic Information

- Place of Origin: shandong china
- Brand Name: Defender
- Certification: CE ISO/IS90001
- Model Number: Alloy 6063/6061/6005/6060, T5/T6
- Minimum Order Quantity: 20m
- Price: Negotiated
- Packaging Details: Wooden box
- Delivery Time: 100 square meters per week
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 2weeks

Product Specification

- Width: Customization
- Style: Ornamental
- Height: Customization
- Assembly: Pre-assembled
- Security: Non-climbable
- Material: Aluminum
- Application: Hotels, Villas, Apartments, Office Buildings, Buildings, Facilities, Supermarkets
- Maintenance: Low Maintenance
- Color: Customization
- Durability: Weather Resistant
- Installation: Easy
- Finishing: Powder Coated
- Highlight: **vertical aluminum fence, vertical decorative metal railings, flat noodles aluminum fence**

PRODUCT DESCRIPTION

Stainless Steel Balcony Staircase Design Railing Handrails Balustrades Aluminum Stair Railing

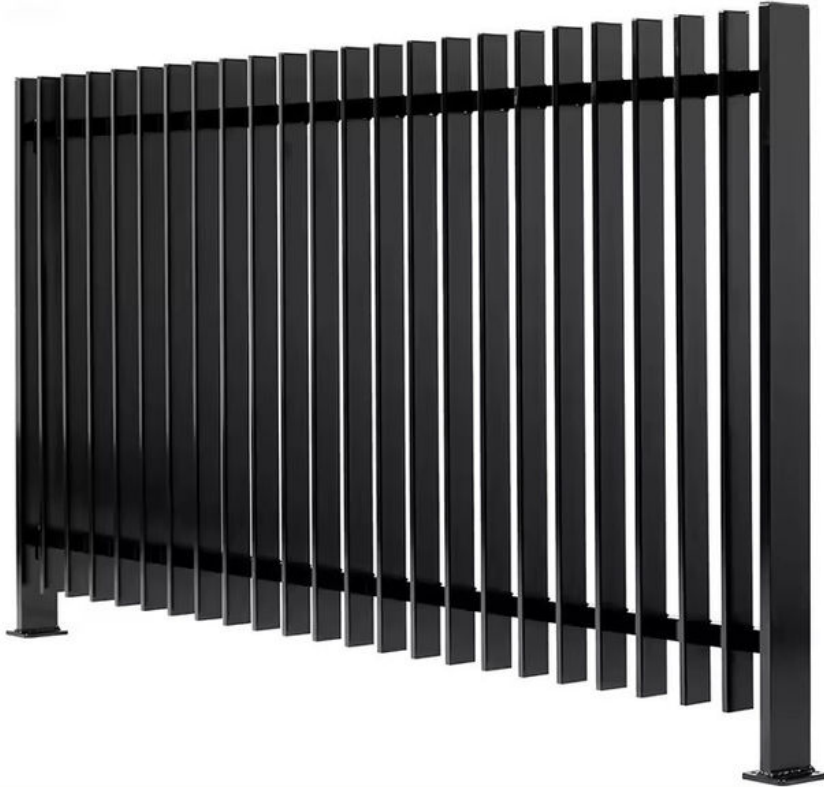

Room Dividers:
Customization: Aluminum railings offer a high level of customization. They can be fabricated in various shapes, sizes, and designs to suit your specific requirements. Whether you prefer a traditional, ornate look or a sleek, modern style, aluminum railings can be tailored to match your desired aesthetic.

Specifications:

Color options: Aluminum railings can be finished with a wide range of colors. Powder coating is a popular finishing technique that provides durability and a smooth, even finish. This allows you to select a color that complements your overall design scheme or matches other elements of your property.

Product Name	Aluminum blade fence
brand	Defender Fence
material	Alloy 6063/6061/6005/6060, T5/T6
surface treatment	Anodizing/Powder Coating/Wood
colour	Black/white/gray/wood grain/customizable
Individual panel size	4 * 7'5 * 8'/Customer requirements
Flat noodles size	65 * 16 * 1.2 mm/100 * 16 * 1.2 mm/150 * 16 * 1.2 mm/
Post type	Square inner cylinder/flange column

Advantages:

Strength and stability: While aluminum is lightweight, it still offers substantial strength and stability. Aluminum railings are engineered to withstand the required load and meet safety standards. They can support significant weight and provide a secure handhold for those using the stairs.

Longevity: Aluminum is a highly durable material that can withstand the test of time. It does not warp, rot, or decay like wood, and it is not susceptible to rust or corrosion like steel. With proper maintenance, aluminum stair railings can last for many years, making them a long-term investment.

Versatility:

Eco-friendly: Aluminum is considered an environmentally friendly material. It is fully recyclable, meaning that at the end of its life cycle, it can be recycled and repurposed rather than ending up in a landfill. Choosing aluminum railings can contribute to sustainable construction practices.

Code compliance: It's crucial to ensure that your aluminum stair railings comply with local building codes and regulations. Building codes often specify requirements for railing height, spacing between balusters or pickets, and other safety considerations. Consulting with professionals or local authorities will help ensure that your installation meets the necessary standards.

Accessories and options: Aluminum railings can be complemented with various accessories and options to enhance their functionality and aesthetics. These may include post caps, decorative elements, lighting fixtures, or glass infill panels. These additions can further personalize your railing system and create a unique look.
