

Laser Cutting Decoration Privacy Garden Gate Aluminium Anti Fading And Low Thermal Expansion

Our Product Introduction

Basic Information

- Place of Origin: shandong china
- Brand Name: Defender
- Certification: CE ISO/IS90001
- Model Number: Alloy 6063/6061/6005/6060, T5/T6
- Minimum Order Quantity: 15 pieces
- Price: consult
- Packaging Details: Wooden box
- Delivery Time: 2 weeks
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 500

Product Specification

- Type: Gate
- Warranty: 10 Years
- Material: Aluminum
- Durable: Yes
- Uv Protection: Yes
- Weather Resistance: Yes
- Easy To Install: Yes
- Versatile: Can Be Used In Various Outdoor Spaces
- Customization Options: Additional Features And Accessories Available
- Waterproof: Yes
- Shade Option: Adjustable Louvers Or Retractable Canopy
- Maintenance: Low
- Color: Customization
- Design: Modern And Sleek

Product Description

PRODUCT DESCRIPTION

Aluminum profile door:

1, Economic advantages

Compared to traditional iron doors, aluminum alloy courtyard doors are lighter, less prone to rusting, corrosion-resistant, and have a longer lifespan. They can reduce the cost of maintenance and door replacement. Compared to traditional wooden doors, they have lower maintenance costs and are less susceptible to problems with insects, fungi, and decay.

2, Security advantages

Aluminum alloy courtyard door is a sturdy and durable door that can provide certain anti-theft functions. Equipped with appropriate locks, it can effectively prevent burglary. Aluminum alloy materials are not easily damaged or bent, thus protecting the safety of families.

3, Aesthetic advantages

Aluminum alloy courtyard doors are made of aluminum alloy and are easy to process. They can be processed into different shapes according to the needs of different customers. This makes aluminum alloy courtyard doors very suitable for various architectural styles, adding a high-end taste and elegance to the home. In addition, using aluminum alloy courtyard doors can also increase the overall value of the house.

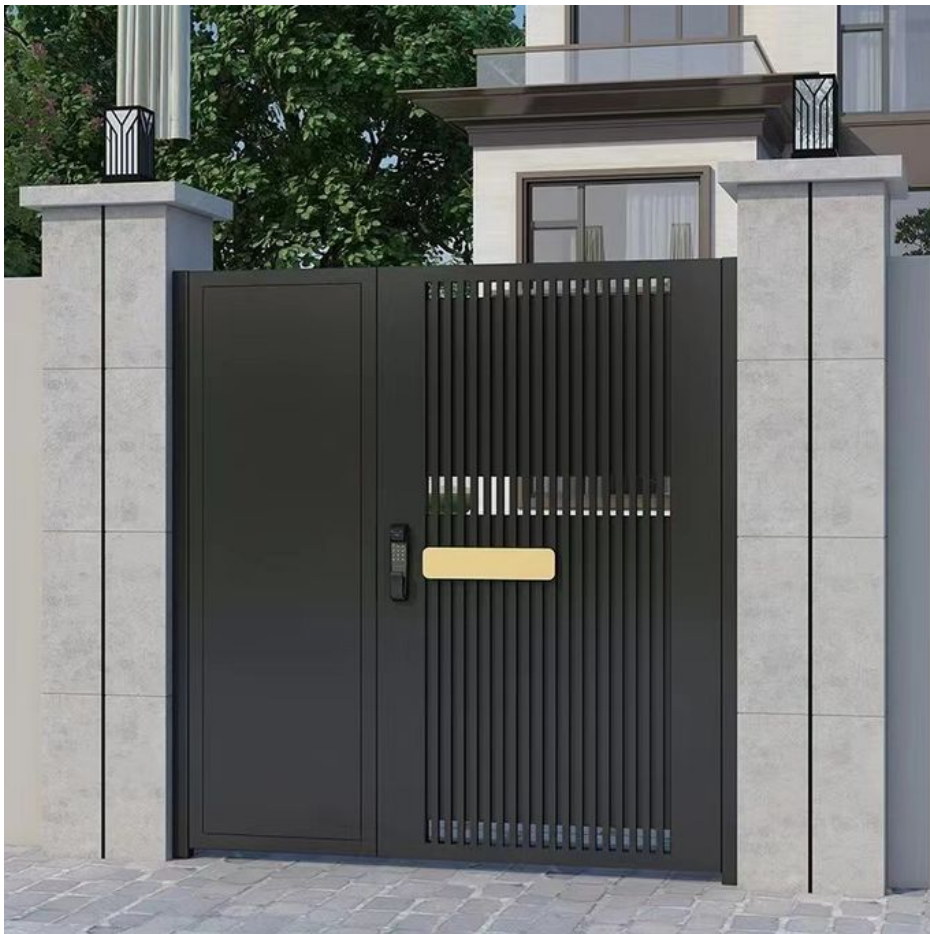

4, Other advantages

Aluminum alloy courtyard doors do not require much maintenance, just proper cleaning and maintenance can maintain their good condition. In addition, aluminum alloy materials are environmentally friendly, free of harmful substances, and have no impact on the environment.

Place of Origin	Shandong, China
Usage	Garden fence, road fence, farm fence
Type	Driveway Gates
Service	3D modeling, 3D sample models, instruction book, video of installation
Brand Name	Defender Metal
Frame Finishing	Powder Coated
Product name	Aluminum Swing Driveway Gates
Material	Aluminum Alloy
Application	Driveway gate, Garden gate, House gat
Surface treatment	Power Coated
Color	customization
Brand	Defender
Warranty	10 Years
Certification	ISO9001
Package	Pearl cotton protection and put in the wood frame
Port	Qingdao

Advantages:

Multifunctionality of design: Aluminum profiles can be extruded into various shapes and sizes, providing a wide range of design possibilities. From simple and fashionable designs to complex patterns and decorative details, aluminum profile doors can be customized to match your property's architectural style and meet your design preferences.

Customized accessories: Aluminum doors can be paired with customized accessories to enhance their functionality and convenience. This includes the integration of functions such as door automation systems, safety cameras, lighting fixtures or decorative elements (such as top decorations or column caps). These customized accessories can be customized according to your specific needs and preferences

Compatible with various environments: Aluminum profile doors are compatible with various environments and property types. Whether you own residential, commercial, or industrial properties, aluminum doors can be designed and installed to meet your specific requirements. They can withstand different environmental conditions, such as coastal areas, urban environments, or rural landscapes.

Multifunctionality:

Compatibility with various environments: Aluminum profile doors are compatible with various environments, including residential, commercial, and industrial environments. They can be used for lanes, pedestrian entrances, pool fences, etc. Aluminum doors can adapt to different architectural styles and seamlessly blend with various environments.

Noise reduction: Aluminum profile doors help reduce the spread of external noise. The inherent characteristics of aluminum, such as its density and sound insulation ability, help to minimize the impact of external noise to the greatest extent possible. This can provide a quieter and more peaceful environment for your property.
