

External Aluminium Sliding Doors Powder Coated Aluminum Entry Gates Adjustable Louvers Or Retractable Canopy

Our Product Introduction

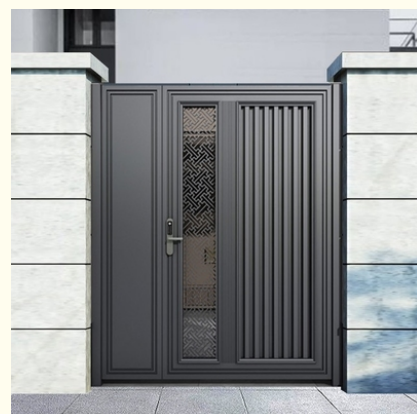

Basic Information

- Place of Origin: shandong china
- Brand Name: Defender
- Certification: CE ISO/IS90001
- Model Number: Alloy 6063/6061/6005/6060, T5/T6
- Minimum Order Quantity: 1 pieces
- Price: consult
- Packaging Details: Wooden box
- Delivery Time: 2 weeks
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 500

Product Specification

- Type: Gate
- Warranty: 10 Years
- Material: Aluminum
- Durable: Yes
- Uv Protection: Yes
- Weather Resistance: Yes
- Easy To Install: Yes
- Versatile: Can Be Used In Various Outdoor Spaces
- Customization Options: Additional Features And Accessories Available
- Waterproof: Yes
- Shade Option: Adjustable Louvers Or Retractable Canopy
- Maintenance: Low
- Color: Customization
- Design: Modern And Sleek

Product Description

PRODUCT DESCRIPTION

Aluminum profile door:

1. The structure of the courtyard door of the aluminum art villa is scientific, with strong plasticity and complete styles: The most intuitive feeling people have about doors is the issue of style, and the complete range of styles makes aluminum art quite smooth on this road. However, while having a complete appearance, a scientific structure is very important. Solid profiles, complex patterns, and scientific force structures make them more practical.
2. Maintenance free, safe, environmentally friendly, and corrosion-resistant courtyard doors of aluminum art villas: Aluminum alloy has excellent corrosion resistance in our province, combined with special process treatment, which can fully meet the outdoor anti-corrosion requirements. Moreover, its weight is only one-third of that of iron doors, making installation simpler and more convenient. No rust or paint peeling, so there is no need for maintenance.
3. The texture of the courtyard door of the aluminum art villa is soft, and the color is bright: Excellent surface treatment technology enables it to have better adhesion and fastness. To make the surface texture more durable and durable, and to satisfy the personalized design of the product in terms of color and appearance, with a strong sense of three dimensionality and a generous appearance.

Place of Origin	Shandong, China
Usage	Garden fence, road fence, farm fence
Type	Driveway Gates
Service	3D modeling, 3D sample models, instruction book, video of installation
Brand Name	Defender Metal
Frame Finishing	Powder Coated
Product name	Aluminum Swing Driveway Gates
Material	Aluminum Alloy
Application	Driveway gate, Garden gate, House gat
Surface treatment	Power Coated
Color	customization
Brand	Defender
Warranty	10 Years
Certification	ISO9001
Package	Pearl cotton protection and put in the wood frame
Port	Qingdao

Advantages:

Reduce swelling and warping: Unlike materials such as wood, aluminum doors do not swell or warp when exposed to moisture or humidity changes. This feature ensures that the door maintains its shape and function over time, thereby reducing the need for maintenance or adjustment.

Integration with security systems: Aluminum profile doors can easily integrate with various security systems to enhance access control and ensure the safety of your property. This may include integrating keyboards, card readers, intercom systems, or closed-circuit television cameras into the door design. The lightweight characteristics of aluminum make it easier to incorporate these additional safety features without affecting the structural integrity of the door.

Sustainability and recyclability: Aluminum has become a highly sustainable material due to its recyclability. When the aluminum profile door reaches the end of its lifecycle, it can be recycled and used to manufacture new aluminum products without losing

its quality. This reduces the impact on the environment and contributes to sustainable resource management.

Multifunctionality:

Low maintenance cost: Compared to other materials such as wood or iron, aluminum doors require the least maintenance. Aluminum does not rust or corrode, so there is no need for regular painting or coating to protect it from natural factors. Regularly cleaning the door with mild soap and water is usually enough to keep it in its optimal condition.

Fire resistance: Aluminum is a non combustible material, which means that aluminum profile doors have excellent fire resistance performance. If a fire occurs, aluminum doors will not promote the spread of flames, making them a safer choice for properties that are concerned about fire safety.

Lightweight and easy to operate: Aluminum doors are lightweight and easy to operate manually or through automated systems. Weight reduction reduces the pressure on door hinges and operating mechanisms, ensuring smooth and easy operation. This is particularly useful for larger doors or individuals who may find it difficult to use heavy-duty manual doors.
