

Powder Coated Aluminium Garden Side Gates Doors External Sliding For Chinese Square

Our Product Introduction

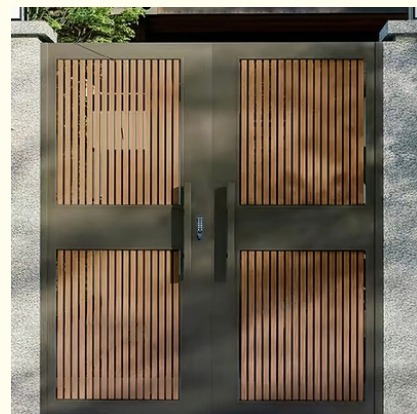

Basic Information

- Place of Origin: shandong china
- Brand Name: Defender
- Certification: CE ISO/IS90001
- Model Number: Alloy 6063/6061/6005/6060, T5/T6
- Minimum Order Quantity: 1 pieces
- Price: consult
- Packaging Details: Wooden box
- Delivery Time: 2 weeks
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 500

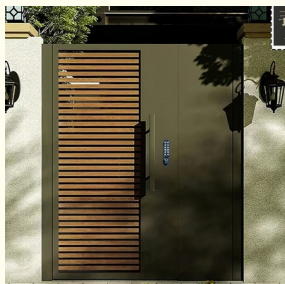

Product Specification

- Type: Gate
- Warranty: 10 Years
- Material: Aluminum
- Durable: Yes
- Uv Protection: Yes
- Weather Resistance: Yes
- Easy To Install: Yes
- Versatile: Can Be Used In Various Outdoor Spaces
- Customization Options: Additional Features And Accessories Available
- Waterproof: Yes
- Shade Option: Adjustable Louvers Or Retractable Canopy
- Maintenance: Low
- Color: Customization
- Design: Modern And Sleek

Product Description

DEFENDERPRODUCT DESCRIPTION

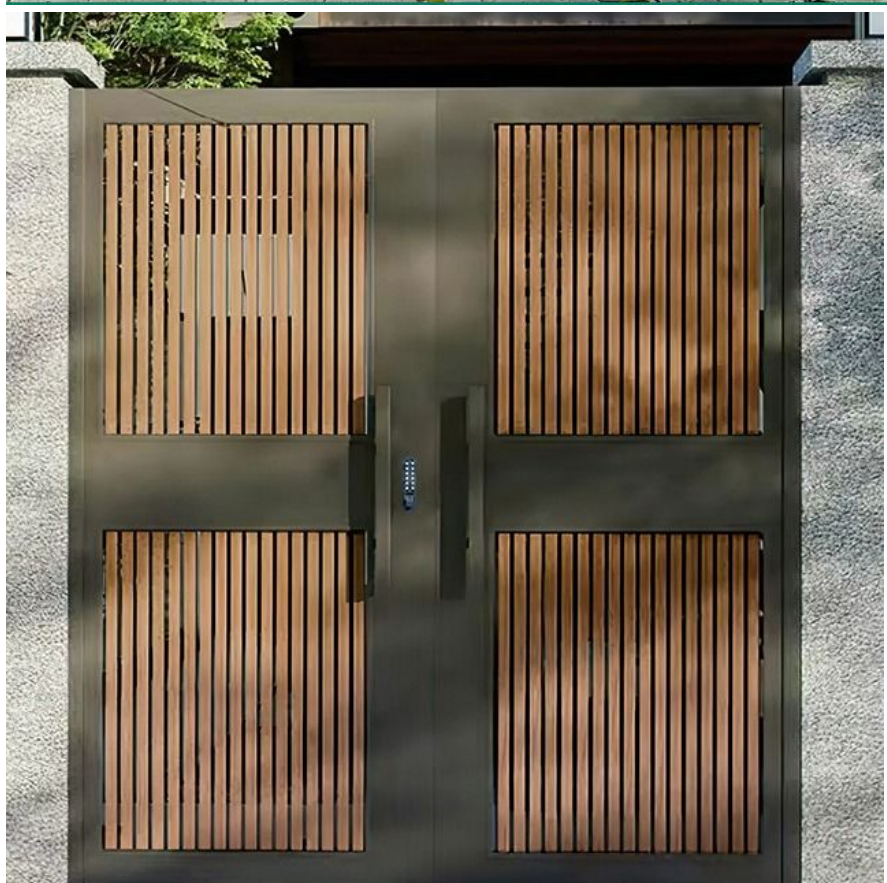

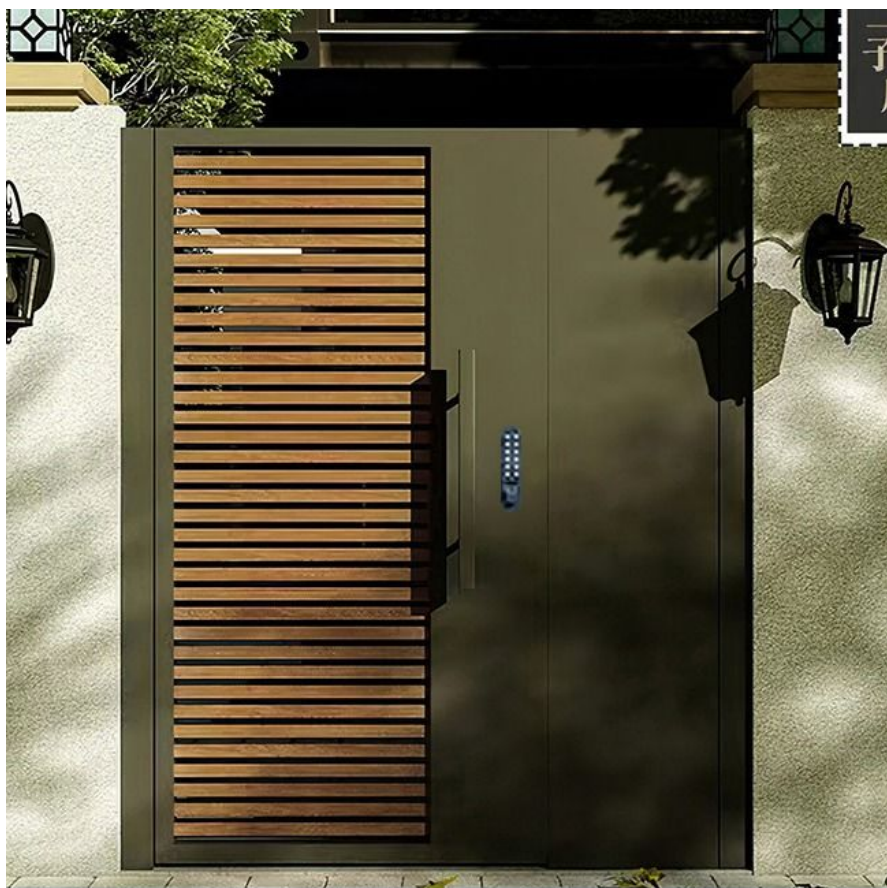

Aluminum profile door:

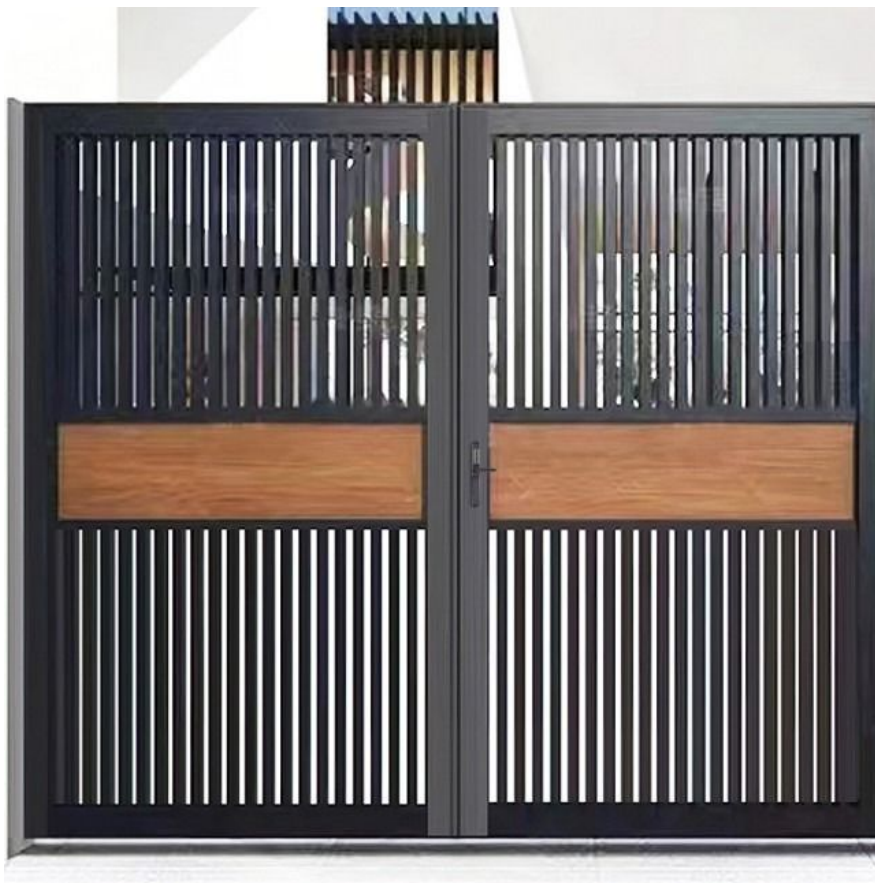

The aluminum art door has a variety of shapes, aluminum, strong plasticity, and can be processed into various aluminum pipes, aluminum plates, flower pieces, and so on according to personal needs. The aluminum art door, which is cleverly matched with pipes, aluminum plates, and flower pieces, is painted, baked, or electrostatic powder sprayed, and has a bright color appearance, satisfying visual enjoyment. The overall style of the gate can also be chosen according to personal preferences, whether it is a European style of luxury or a Chinese style of elegance.

The surface of the aluminum art gate has formed a permanent protective film, which is resistant to high temperature, corrosion, smooth and flat, easy to clean, and will not be affected by wind, rain, sun, and rain on the paint surface. As a courtyard door, it is particularly practical and has a long service life. As long as it is not artificially damaged, there will be no problems such as paint peeling, corrosion, and deformation under natural conditions, giving people a full sense of security. The aluminum gate, which combines practicality, safety, and aesthetics, has gradually integrated into people's lives, with excellent products and good quality, fully meeting the needs of modern life.

Place of Origin	Shandong, China
Usage	Garden fence, road fence, farm fence
Type	Driveway Gates
Service	3D modeling, 3D sample models, instruction book, video of installation
Brand Name	Defender Metal
Frame Finishing	Powder Coated
Product name	Aluminum Swing Driveway Gates
Material	Aluminum Alloy
Application	Driveway gate, Garden gate, House gat
Surface treatment	Power Coated
Color	customization
Brand	Defender
Warranty	10 Years
Certification	ISO9001
Package	Pearl cotton protection and put in the wood frame
Port	Qingdao

Advantages:

Reduce swelling and warping: Unlike materials such as wood, aluminum doors do not swell or warp when exposed to moisture or humidity changes. This feature ensures that the door maintains its shape and function over time, thereby reducing the need for maintenance or adjustment.

Integration with security systems: Aluminum profile doors can easily integrate with various security systems to enhance access control and ensure the safety of your property. This may include integrating keyboards, card readers, intercom systems, or closed-circuit television cameras into the door design. The lightweight characteristics of aluminum make it easier to incorporate these additional safety features without affecting the structural integrity of the door.

Sustainability and recyclability: Aluminum has become a highly sustainable material due to its recyclability. When the aluminum profile door reaches the end of its lifecycle, it can be recycled and used to manufacture new aluminum products without losing its quality. This reduces the impact on the environment and contributes to sustainable resource management.

Multifunctionality:

Low maintenance cost: Compared to other materials such as wood or iron, aluminum doors require the least maintenance. Aluminum does not rust or corrode, so there is no need for regular painting or coating to protect it from natural factors. Regularly cleaning the door with mild soap and water is usually enough to keep it in its optimal condition.

Fire resistance: Aluminum is a non-combustible material, which means that aluminum profile doors have excellent fire resistance performance. If a fire occurs, aluminum doors will not promote the spread of flames, making them a safer choice for properties that are concerned about fire safety.

Lightweight and easy to operate: Aluminum doors are lightweight and easy to operate manually or through automated systems. Weight reduction reduces the pressure on door hinges and operating mechanisms, ensuring smooth and easy operation. This is particularly useful for larger doors or individuals who may find it difficult to use heavy-duty manual door
