

Alloy 6063 / 6061 Custom Aluminium Gates Standard Size Weather Resistant

Our Product Introduction

Basic Information

- Place of Origin: shandong china
- Brand Name: Defender
- Certification: CE ISO/IS90001
- Model Number: Alloy 6063/6061/6005/6060, T5/T6
- Minimum Order Quantity: 15 pieces
- Price: consult
- Packaging Details: Wooden box
- Delivery Time: 2 weeks
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 500

Product Specification

- Type: Gate
- Durable: Yes
- Uv Protection: Yes
- Weather Resistance: Yes
- Versatile: Can Be Used In Various Outdoor Spaces
- Customization Options: Additional Features And Accessories Available
- Waterproof: Yes
- Shade Option: Adjustable Louvers Or Retractable Canopy
- Maintenance: Low
- Color: Customization
- Design: Modern And Sleek
- Size: Standard
- Style: Modern
- Security: High

Product Description

PRODUCT DESCRIPTION

The electric sliding door of the villa courtyard gate has high convenience.

The traditional manual opening and closing method requires manual sliding of the door, which is cumbersome and time-consuming.

The electric sliding door adopts an automatic opening and closing method, and the door can be automatically opened or closed by simply pressing a button or using a remote control.

Car owners can directly drive into the villa without getting off, saving a lot of time and energy.

In addition, the electric sliding door of the villa courtyard gate also has a beautiful and elegant appearance.

It uses high-quality aluminum alloy materials and tempered glass, with a delicate appearance and full texture.

The door body can be customized according to customer needs, with different colors and styles to match the overall design style of the villa, increasing the beauty and luxury of the villa.

In addition to the above characteristics, the electric sliding door of the villa courtyard gate also has some other advantages.

For example, it can be operated through a remote control system without the need to personally operate at the door, improving the convenience of use.

At the same time, it also has good durability and protective performance, which can withstand harsh weather and external challenges, protecting the safety of villas and residents.

Place of Origin	Shandong, China
Usage	Garden fence, road fence, farm fence
Type	Driveway Gates
Service	3D modeling, 3D sample models, instruction book, video of installation
Brand Name	Defender Metal
Frame Finishing	Powder Coated
Product name	Aluminum Swing Driveway Gates

Surface treatment	Power Coated
Color	customization
Brand	Defender
Warranty	10 Years
Certification	ISO9001
Package	Pearl cotton protection and put in the wood frame
Port	Qingdao

Advantages:

Multifunctionality of design: Aluminum profiles can be extruded into various shapes and sizes, providing a wide range of design possibilities. From simple and fashionable designs to complex patterns and decorative details, aluminum profile doors can be customized to match your property's architectural style and meet your design preferences.

Integration with security systems: Aluminum profile doors can easily integrate with various security systems to enhance access control and ensure the safety of your property. This may include integrating keyboards, card readers, intercom systems, or closed-circuit television cameras into the door design. The lightweight characteristics of aluminum make it easier to incorporate these additional safety features without affecting the structural integrity of the door.

Sustainability and recyclability: Aluminum has become a highly sustainable material due to its recyclability. When the aluminum profile door reaches the end of its lifecycle, it can be recycled and used to manufacture new aluminum products without losing its quality. This reduces the impact on the environment and contributes to sustainable resource management.

Multifunctionality:

Compatibility with various environments: Aluminum profile doors are compatible with various environments, including residential, commercial, and industrial environments. They can be used for lanes, pedestrian entrances, pool fences, etc. Aluminum doors can adapt to different architectural styles and seamlessly blend with various environments.
