

Sliding Aluminium Pedestrian Garden Gates Powder Coated Aluminum Alloy 6063/6061/6005

Our Product Introduction

for more products please visit us on alumfencing.com

Basic Information

- Place of Origin: shandong china
- Brand Name: Defender
- Certification: CE ISO/IS90001
- Model Number: Alloy 6063/6061/6005/6060, T5/T6
- Minimum Order Quantity: 1 pieces
- Price: consult
- Packaging Details: Wooden box
- Delivery Time: 2 weeks
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 500

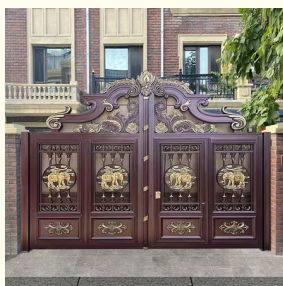

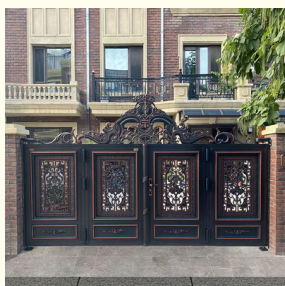

Product Specification

- Type: Aluminum Door
- Warranty: 10 Years
- Material: Aluminum
- Durable: Yes
- Uv Protection: Yes
- Weather Resistance: Yes
- Easy To Install: Yes
- Versatile: Can Be Used In Various Outdoor Spaces
- Customization Options: Additional Features And Accessories Available
- Waterproof: Yes
- Shade Option: Adjustable Louvers Or Retractable Canopy
- Maintenance: Low
- Color: Customization
- Design: Modern And Sleek

Product Description

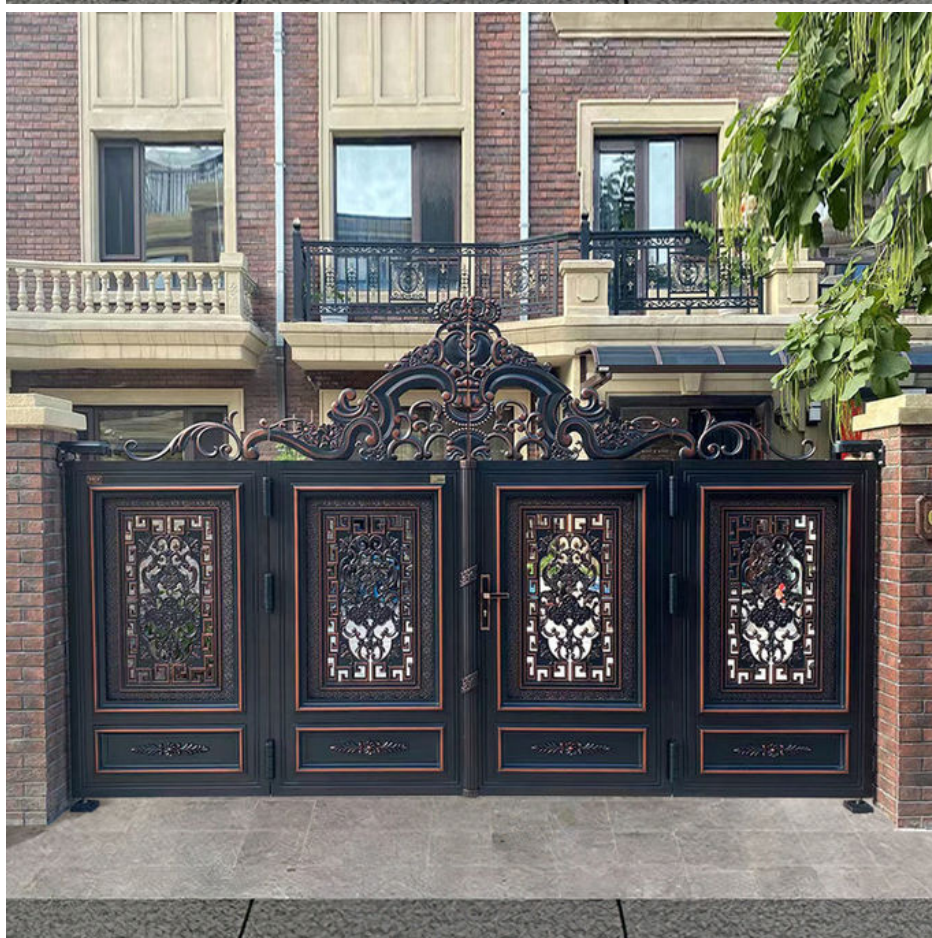

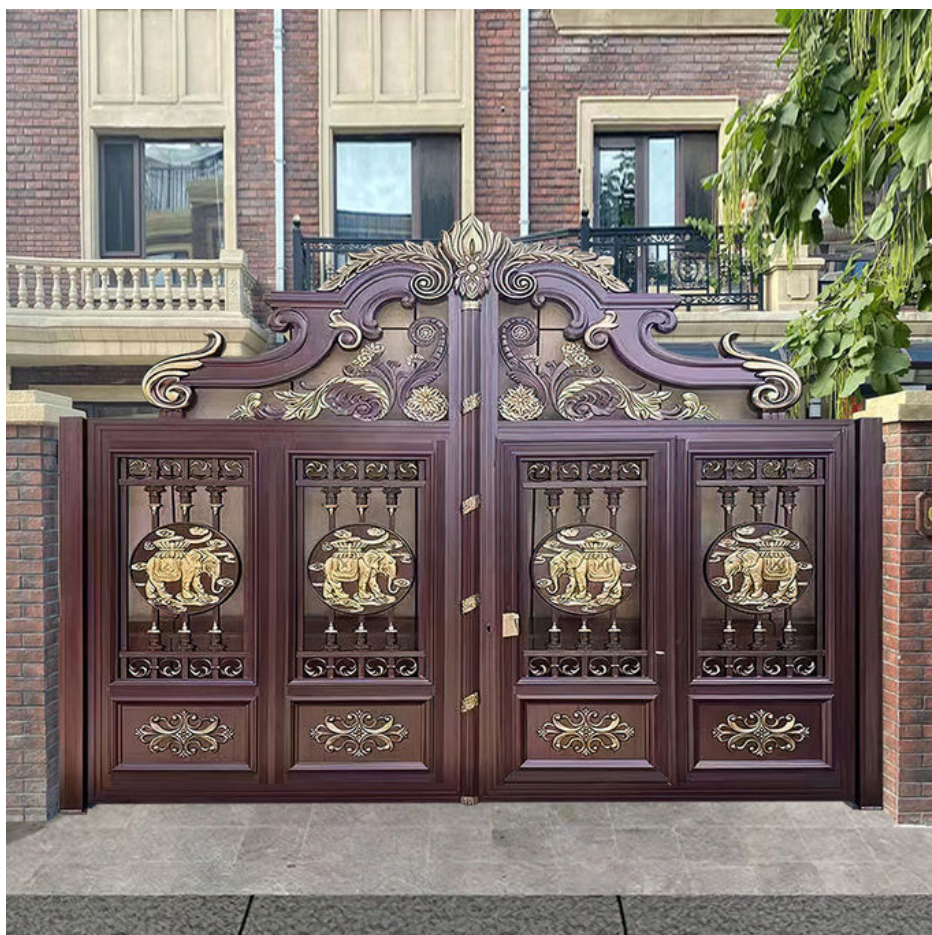

PRODUCT DESCRIPTION

Aluminum profile door:

Aluminum doors use raw materials that can withstand strong tensile and impact forces. The higher the purity of aluminum in the aluminum gate, the better its corrosion resistance, and the better its corrosion resistance, the less likely the aluminum gate will rust. In order to avoid oxidation between aluminum and oxygen in the air, paint baking or powder spraying are used to further enhance its protective performance. It can be used with peace of mind in cities with severe air pollution or coastal areas with severe sea salt corrosion

Place of Origin	Shandong, China
Usage	Garden fence, road fence, farm fence
Type	Driveway Gates
Service	3D modeling, 3D sample models, instruction book, video of installation
Brand Name	Defender Metal
Frame Finishing	Powder Coated
Product name	Aluminum Swing Driveway Gates
Material	Aluminum Alloy
Application	Driveway gate, Garden gate, House gat
Surface treatment	Power Coated
Color	customization
Brand	Defender
Warranty	10 Years
Certification	ISO9001
Package	Pearl cotton protection and put in the wood frame
Port	Qingdao

Advantages:

Reduce swelling and warping: Unlike materials such as wood, aluminum doors do not swell or warp when exposed to moisture or humidity changes. This feature ensures that the door maintains its shape and function over time, thereby reducing the need for maintenance or adjustment.

Integration with security systems: Aluminum profile doors can easily integrate with various security systems to enhance access control and ensure the safety of your property. This may include integrating keyboards, card readers, intercom systems, or closed-circuit television cameras into the door design. The lightweight characteristics of aluminum make it easier to incorporate these additional safety features without affecting the structural integrity of the door.

Sustainability and recyclability: Aluminum has become a highly sustainable material due to its recyclability. When the aluminum profile door reaches the end of its lifecycle, it can be recycled and used to manufacture new aluminum products without losing its quality. This reduces the impact on the environment and contributes to sustainable resource management.

Multifunctionality:

Fire resistance: Aluminum is a non combustible material, which means that aluminum profile doors have excellent fire resistance performance. If a fire occurs, aluminum doors will not promote the spread of flames, making them a safer choice for properties that are concerned about fire safety.

Lightweight and easy to operate: Aluminum doors are lightweight and easy to operate manually or through automated systems. Weight reduction reduces the pressure on door hinges and operating mechanisms, ensuring smooth and easy operation. This is particularly useful for larger doors or individuals who may find it difficult to use heavy-duty manual doors.
