Applications:

One of the most common applications for the Defender Aluminum Fence is as a security fence. Its strong construction and customizable design make it an excellent choice for securing commercial and industrial facilities, as well as residential properties. The fence can be customized to fit any size or shape of property, and its 8-foot height makes it an effective barrier against intruders.

Another common application for the Defender Aluminum Fence is as a privacy fence. The fence's modern style and customizable design make it an attractive option for homeowners who want to create a private outdoor space. The fence can be customized to fit any size or shape of property, and its sleek design complements any modern home design.

The Defender Aluminum Fence is also a popular choice for pool enclosures. The fence's durable construction and customizable design make it an excellent choice for keeping children and pets safe around a pool. The fence can be customized to fit any size or shape of pool area, and its powder-coated finish ensures that it will withstand exposure to water and sunlight.

Other common applications for the Defender Aluminum Fence include as a garden fence, as a barrier for commercial and industrial facilities, and as a decorative fence for residential properties. The fence's customizable design and durable construction make it an excellent choice for a variety of applications.

The Defender Aluminum Fence is made of alloy 6063/6061/6005/6060, T5/T6 and is certified with CE ISO/IS90001. It is manufactured in Shandong China and has a minimum order quantity of 10m. The price is available upon consultation, and payment terms include L/C, D/A, D/P, T/T, Western Union, and MoneyGram. The fence has a supply ability of 7 days and delivery time of 15 days. The fence is packaged in a wooden box for safe transportation. The fence comes unassembled but can be easily assembled on site. The fence is available in a variety of colors and can be customized to match any property. The fence's surface treatment options include anodizing, powder coating, and wood. The fence's surface is powder-coated for added durability.
