

Customized Length Custom Extruded Aluminum Profiles For Performance

Our Product Introduction

for more products please visit us on alumfencing.com

Basic Information

- Place of Origin: shandong china
- Brand Name: Defender
- Certification: CE ISO/IS90001
- Model Number: Alloy 6063/6061/6005/6060, T5/T6
- Minimum Order Quantity: 1t
- Price: 1 - 19 t 3,000.00 \$ 20 - 99 t 2,600.00 \$ 100 - 999 t 2,400.00 \$ >= 1000 t 2,000.00 \$
- Packaging Details: 1. Expose surface: Packed with blank protective film or customized 2. Outside protection: Heat shrink film to cover and protect. / Kraft paper to use. 3. Packed according to customers' requirement. 9~11tons/20'GP container , 20~28tons/40'HQ container.
- Delivery Time: 10days
- Supply Ability: 2500 Ton/Tons per Month

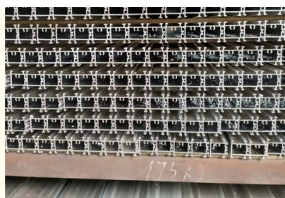

Product Specification

- Thickness: Customized
- Application: Windows, Doors, Curtain Walls, Heat Sinks, Etc.
- Shape: Customized
- Surface Treatment: Anodized
- Color: Silver
- Width: Customized
- Usage: Construction, Industrial, Transportation, Etc.
- Length: Customized
- Highlight: customized custom aluminum profiles, customized custom extruded aluminum profiles, extruded custom aluminum profiles

Product Description

Product Description:

One of the most common types of aluminum profiles is the standard extruded aluminum profile, which is available in a wide range of sizes and shapes to suit different applications. These profiles are often used in construction projects, such as for framing windows and doors, as well as in industrial settings for machine frames and other structures. They are also commonly used in transportation applications, such as for the construction of trailers and truck bodies.

Another popular type of aluminum profile is the LED aluminum profile, which is specifically designed to house LED lighting strips. These profiles are available in a range of shapes and sizes, and are often used in commercial and industrial applications for lighting fixtures. They are also commonly used in residential settings, such as for under-cabinet lighting in kitchens and other areas.

Standard aluminum profiles are also available for a variety of other applications. These profiles can be used in everything from furniture construction to electrical enclosures, and are valued for their strength, durability, and versatility. They are available in a range of colours to suit different applications, and can be customized to meet specific requirements.

Overall, aluminum profiles are an excellent choice for a wide range of applications. Whether you need standard extruded aluminum profiles, LED aluminum profiles, or other types of standard aluminum profiles, you can trust that these products will provide the strength, durability, and versatility you need.

Features:

Product Name: Aluminum profiles

Product Category: Aluminum profiles

Production Process: Extrusion, Cutting, Drilling, Milling, Etc.

Surface Treatment: Anodized

Material: Aluminum Alloy

Length: Customized

Keyword: led aluminum profiles

Keyword: led aluminum profiles

Keyword: led aluminum profiles

Technical Parameters:

Product Name	Anodized aluminum oxide profiles for photo frames, aluminum glass profiles
Surface Treatment	Anodized
Application	Windows, Doors, Curtain Walls, Heat Sinks, Etc.
Shape	Customized
Color available	Silver, Bronze, champagne ,Matte,Natural for anodizing, RAL for powder coating
Features	Lightweight, Strong, Corrosion-resistant
Production Process	Extrusion, Cutting, Drilling, Milling, Etc.
Surface treatment	Mill finish, anodized, powder coated, electrophoresis, sand blasting etc. PVDF coating, wood grain painting, matted, polishing bright
Color	Silver
Thickness	Customized

Applications:

Our standard aluminum profiles are versatile and can be used in a variety of applications such as frames, enclosures, and fences. They are available in various colours such as silver, black, and white. The finish can be customized to meet your specific needs, including mill finish, anodized, powder-coated, electrophoresis, sandblasting, PVDF coating, wood grain painting, matt, polishing bright, etc. The thickness and width can also be customized to meet your specific requirements. Our aluminum profiles are durable, corrosion-resistant, and have excellent thermal conductivity.

Our LED aluminum profiles are designed specifically for LED lighting applications. They are available in various shapes and sizes,

including U-shaped, V-shaped, circular, and square. These profiles provide a sleek and contemporary look while also acting as a heat sink to dissipate heat generated by the LED lights. With our LED aluminum profiles, you can achieve a professional and clean installation of your LED lighting.

Our standard extruded aluminum profiles are used in applications such as machine frames, conveyor systems, and workstations. These profiles are lightweight, yet strong, and can be easily assembled using simple tools. They are available in various shapes and sizes, including T-slot profiles, which allow for easy insertion of fasteners and accessories. Our standard extruded aluminum profiles can be customized to meet your specific needs and requirements.

With Defender Aluminum Profiles, you can be assured of quality and reliability. Our products are manufactured to the highest standards and are backed by our commitment to customer satisfaction. Whether you need standard aluminum profiles, LED aluminum profiles, or standard extruded aluminum profiles, we have the right product for your application.

Support and Services:

Our Aluminum profiles product technical support and services include:

Assistance with product selection and customization based on specific project requirements

Technical consultation for design and engineering of aluminum profiles

Product testing and analysis to ensure compliance with industry standards

Training and education on the proper use and installation of aluminum profiles

Repair and maintenance services to extend the lifespan of the product

Warranty and replacement services for defective or damaged aluminum profiles

Our team of experts is dedicated to providing exceptional support and services to ensure the success of your project. Contact us for more information.

Packing and Shipping:

Product Packaging:

Our aluminum profiles are carefully packaged to ensure safe delivery. Each profile is wrapped in protective material and then placed in a sturdy cardboard box with additional cushioning. The boxes are then sealed and labeled for easy identification.

Shipping:

We ship our aluminum profiles via reliable courier services to ensure timely and safe delivery. Shipping rates and times vary depending on the destination and the quantity of profiles ordered. Please contact us for a shipping quote and estimated delivery time.

FAQ:

Q: What is the brand name of the Aluminum profiles?

A: The brand name of the Aluminum profiles is Defender.

Q: What is the model number of the Aluminum profiles?

A: The model number of the Aluminum profiles is Alloy 6063/6061/6005/6060, T5/T6.

Q: Is the Aluminum profiles certified?

A: Yes, the Aluminum profiles are certified with CE ISO/IS90001.

Q: Where is the Aluminum profiles made?

A: The Aluminum profiles are made in Shandong, China.

Q: What is the minimum order quantity for the Aluminum profiles?

A: The minimum order quantity for the Aluminum profiles is 1 ton.

Q: What is the price for the Aluminum profiles?

A: The price for the Aluminum profiles is as follows:

1-19t: \$3,000.00 per ton

20-99t: \$2,600.00 per ton

100-999t: \$2,400.00 per ton

>=1000t: \$2,000.00 per ton

Q: What is the supply ability for the Aluminum profiles?

A: The supply ability for the Aluminum profiles is 2500 Ton/Tons per month.

Q: What is the delivery time for the Aluminum profiles?

A: The delivery time for the Aluminum profiles is 10 days.

Q: What is the packaging details for the Aluminum profiles?

A: The packaging details for the Aluminum profiles are as follows:

1. Expose surface: Packed with blank protective film or customized

2. Outside protection: Heat shrink film to cover and protect. / Kraft paper to use.

3. Packed according to customers' requirement. 9~11tons/20'GP container , 20~28tons/40'HQ container.
