Basic Information

- Place of Origin: shandong china
- Brand Name: Defender
- Certification: CE ISO/IS90001
- Model Number: Alloy 6063/6061/6005/6060, T5/T6
- Minimum Order Quantity: 1t
- Price: 1 - 19 t 3,000.00 \$ 20 - 99 t 2,600.00 \$ 100 - 999 t 2,400.00 \$ >= 1000 t 2,000.00 \$
- Packaging Details: 1. Expose surface: Packed with blank protective film or customized 2. Outside protection: Heat shrink film to cover and protect. / Kraft paper to use. 3. Packed according to customers' requirement. 9~11tons/20'GP container , 20~28tons/40'HQ container.
- Delivery Time: 10days
- Supply Ability: 2500 Ton/Tons per Month

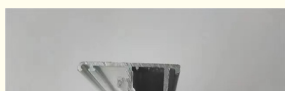

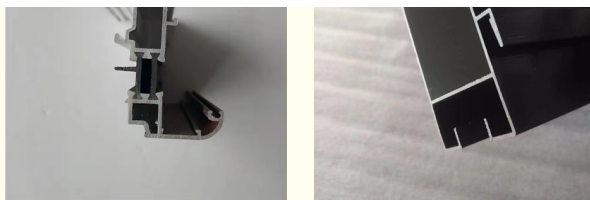

Product Specification

- Color: Silver
- Surface Treatment: Mill Finish, Anodized, Powder Coated, Electrophoresis, Sand Blasting Etc. PVDF Coating, Wood Grain Painting, Matted, Polishing Bright
- Usage: Construction, Industrial, Transportation, Etc.
- Shape: Customized
- Width: Customized
- Product Name: Anodized Aluminum Oxide Profiles For Photo Frames, Aluminum Glass Profiles
- Section Shapes: I, U, T, C, Z, L, H, Square, Round, Flat, Hollow, T-slot, And Other Complicated Shapes By Custom Design.
- Length: Customized

Product Description

Product Description:

One of the main advantages of the Aluminum profiles product is its versatility. The profiles come in a range of standard extruded aluminum profiles and can also be customized to meet specific requirements and applications. This flexibility makes it easy to find the perfect profile for any project, whether it's for a small-scale DIY project or a large-scale industrial application.

The Aluminum profiles product also offers a range of surface treatments, including mill finish, anodized, powder coated, electrophoresis, sand blasting, PVDF coating, wood grain painting, matted, polishing bright, and more. These surface treatments provide additional protection against corrosion and wear and tear, as well as enhance the appearance of the profiles.

The Aluminum profiles product is available in a classic silver color that complements any design aesthetic. The profiles' sleek and modern design makes them perfect for both indoor and outdoor applications, including windows and doors, curtain walls, furniture, transportation, and more.

The Aluminum profiles product also comes in various lengths, customized to meet specific project requirements. This feature ensures that the profiles fit perfectly into any project, eliminating the need for additional cutting or welding. It also ensures that waste is minimized, reducing project costs.

The Aluminum profiles product is also suitable for LED lighting applications, making it an ideal choice for designers and contractors looking for a high-quality solution for their lighting projects. The LED aluminum profiles come in a range of shapes and sizes, including U-shape, V-shape, round, and square, allowing for a wide range of design possibilities.

Overall, the Aluminum profiles product is an excellent choice for anyone looking for a durable, versatile, and cost-effective solution for their construction, industrial, transportation, or other applications. With its range of surface treatments, customized lengths, and LED aluminum profiles, the product offers the flexibility and quality needed to ensure project success.

Features:

Product Name: Aluminum profiles

Color: Silver

Section Shapes: I, U, T, C, Z, L, H, square, round, flat, hollow, t-slot, and other complicated shapes by custom design.

Application: Windows, Doors, Curtain Walls, Heat Sinks, Etc.

Width: Customized

Product Category: Aluminum profiles

Features:

Standard extruded aluminum profiles

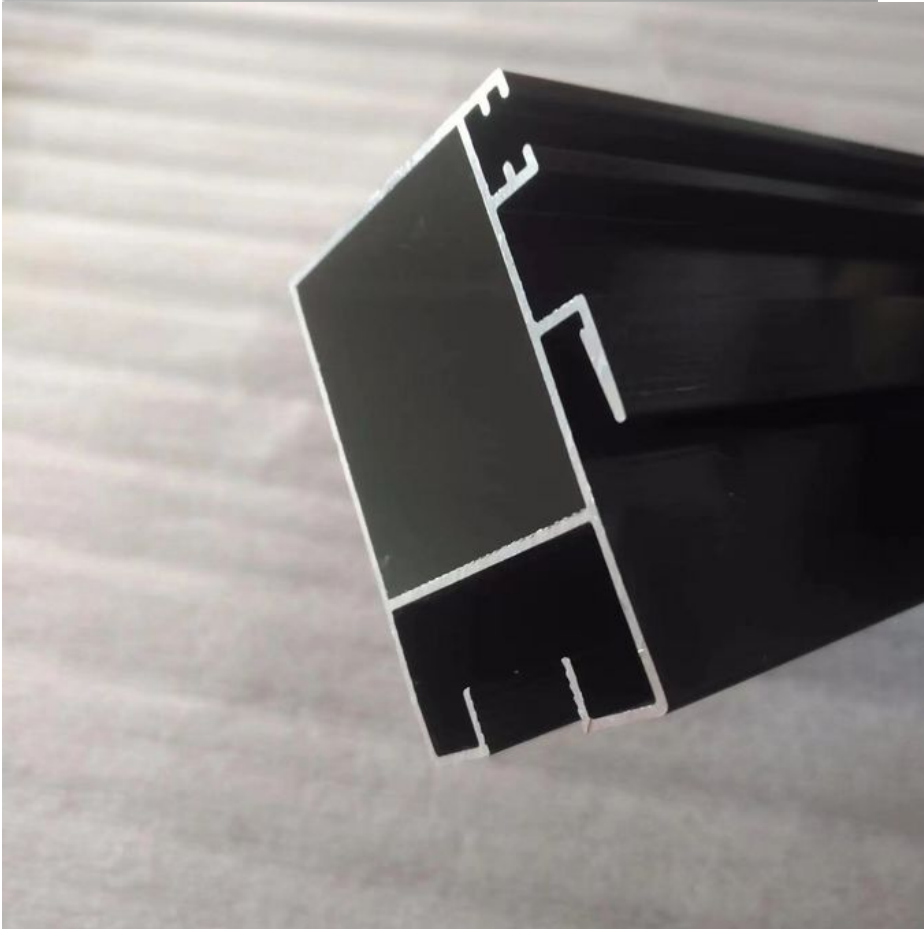

Custom extruded aluminum profiles

Standard extruded aluminum profiles

Technical Parameters:

Technical Parameters	Description
Product Type	Custom Extruded Aluminum Profiles
Length	Customized
Color Available	Silver, Bronze, Champagne, Matte, Natural for Anodizing, RAL for Powder Coating
Surface Treatment	Mill Finish, Anodized, Powder Coated, Electrophoresis, Sand Blasting, PVDF Coating, Wood Grain Painting, Matted, Polishing Bright
Section Shapes	I, U, T, C, Z, L, H, Square, Round, Flat, Hollow, T-Slot, and other complicated shapes by custom design
Usage	Construction, Industrial, Transportation, Etc.
Material	Aluminum Alloy
Production Process	Extrusion, Cutting, Drilling, Milling, Etc.

Surface Treatment	Anodized
Color	All Kind
Shape	Customized

Applications:

The Aluminum Profiles can be used in a variety of applications, including but not limited to Windows, Doors, Curtain Walls, Heat Sinks,

etc. These profiles are perfect for applications that require a lightweight, yet strong material that is also corrosion-resistant. Additionally, the profiles come in a range of colors, including Silver, Bronze, champagne, Matte, and Natural for anodizing, and RAL for powder coating.

One of the main features of the Defender Aluminum Profiles is that they are standard aluminum profiles. This means that they are perfect for use in a range of applications where a standard profile is required. They are also easy to install, making them ideal for DIY projects. Another great application for Defender Aluminum Profiles is in LED lighting. The LED Aluminum Profiles are perfect for use in a range of lighting applications, including under cabinet lighting, recessed lighting, and accent lighting. They are available in a range of shapes and sizes, making them perfect for any lighting project.

Support and Services:

Our Aluminum profiles product is backed by comprehensive technical support and services to ensure customer satisfaction. Our team of experts is available to provide assistance with product selection, installation, and maintenance. We also offer customization options to meet specific project requirements. Our services include:

Product selection assistance

Customization options

Installation support

Maintenance services

Technical troubleshooting and support

We are committed to providing top-notch technical support and services to our customers. Contact us for more information.

Packing and Shipping:

Product Packaging:

Our aluminum profiles are carefully packaged to ensure they arrive at your doorstep in pristine condition. Each profile is individually wrapped in protective material and placed in a sturdy cardboard box. The box is then sealed and labeled for easy identification.

Shipping:

We offer fast and reliable shipping to all destinations. Our shipping rates are competitive and vary depending on the destination and the size of the order. Once your order is processed, we will provide you with a tracking number so you can track your shipment. Delivery times may vary depending on the destination and shipping method selected.

FAQ:

Q: What is the brand name of the Aluminum profiles?

A: The brand name of the Aluminum profiles is Defender.

Q: What is the model number of the Aluminum profiles?

A: The model number of the Aluminum profiles is Alloy 6063/6061/6005/6060, T5/T6.

Q: What certifications does the Aluminum profiles have?

A: The Aluminum profiles have CE ISO/IS90001 certification.

Q: Where is the Aluminum profiles manufactured?

A: The Aluminum profiles are manufactured in Shandong China.

Q: What is the minimum order quantity for Aluminum profiles?

A: The minimum order quantity for Aluminum profiles is 1 ton.

Q: What is the price range for Aluminum profiles?

A: The price for Aluminum profiles is:

1-19 t: \$3,000.00 per ton

20-99 t: \$2,600.00 per ton

100-999 t: \$2,400.00 per ton

>= 1000 t: \$2,000.00 per ton

Q: What is the supply ability for Aluminum profiles?

A: The supply ability for Aluminum profiles is 2500 Ton/Tons per month.

Q: What is the delivery time for Aluminum profiles?

A: The delivery time for Aluminum profiles is 10 days.

Q: What are the packaging details for Aluminum profiles?

A: The packaging details for Aluminum profiles are:

1. Expose surface: Packed with blank protective film or customized

2. Outside protection: Heat shrink film to cover and protect. / Kraft paper to use.

3. Packed according to customers' requirement. 9~11tons/20'GP container , 20~28tons/40'HQ container.
