

## Customized Sizes Aluminum Profiles For Door Pillars , Steel Fences

### Our Product Introduction

for more products please visit us on [alumfencing.com](http://alumfencing.com)

#### Basic Information

- Place of Origin: shandong china
- Brand Name: Defender
- Certification: CE ISO/IS90001
- Model Number: Alloy 6063/6061/6005/6060, T5/T6
- Minimum Order Quantity: 1t
- Price: 1 - 19 t 3,000.00 \$ 20 - 99 t 2,600.00 \$ 100 - 999 t 2,400.00 \$ >= 1000 t 2,000.00 \$
- Packaging Details: 1. Expose surface: Packed with blank protective film or customized 2. Outside protection: Heat shrink film to cover and protect. / Kraft paper to use. 3. Packed according to customers' requirement. 9~11tons/20'GP container , 20~28tons/40'HQ container.
- Delivery Time: 10days
- Supply Ability: 2500 Ton/Tons per Month

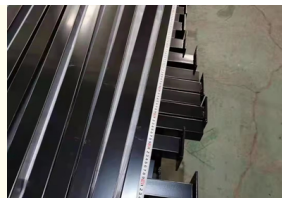

#### Product Specification

- Features: Lightweight, Strong, Corrosion-resistant
- Length: Customized
- Color Available: Silver, Bronze, Champagne ,Matte,Natural For Anodizing, RAL For Powder Coating
- Product Category: Aluminum Profiles
- Usage: Construction, Industrial, Transportation, Etc.
- Surface Treatment: Mill Finish, Anodized, Powder Coated, Electrophoresis, Sand Blasting Etc. PVDF Coating, Wood Grain Painting, Matted, Polishing Bright
- Colour: All Kind
- Application: Windows, Doors, Curtain Walls, Heat Sinks, Etc.
- Highlight: **customized sizes aluminum profiles,**

### Product Description

#### Product Description:

Our production process includes extrusion, cutting, drilling, milling, and more to ensure that our aluminum profiles are of the highest quality. We use state-of-the-art equipment to ensure that our profiles are precise and accurate.

Our Anodized aluminum oxide profiles for photo frames and aluminum glass profiles are available in a variety of colors, including Silver, Bronze, Champagne, Matte, Natural for anodizing, and RAL for powder coating. You can choose the color that best suits your needs and preferences.

Our extrusion aluminum profiles are perfect for those who need a customized solution for their projects. We can create profiles that are tailored to your exact specifications, ensuring that you get the perfect fit every time. Our team of experts will work with you to create the perfect profile for your needs.

Whether you need custom extruded aluminum profiles or standard extruded aluminum profiles, we have you covered. Our profiles are made to withstand the test of time, and they are perfect for a variety of applications. Contact us today to learn more about our Aluminum profiles and how they can benefit you.

#### Features:

Product Name: Anodized aluminum oxide profiles for photo frames, aluminum glass profiles

Color available: Silver, Bronze, champagne ,Matte,Natural for anodizing, RAL for powder coating

Surface treatment: Mill finish, anodized, powder coated, electrophoresis, sand blasting etc. PVDF coating, wood grain painting, matted, polishing bright

Colour: All Kind

Surface Treatment: Anodized

Features:

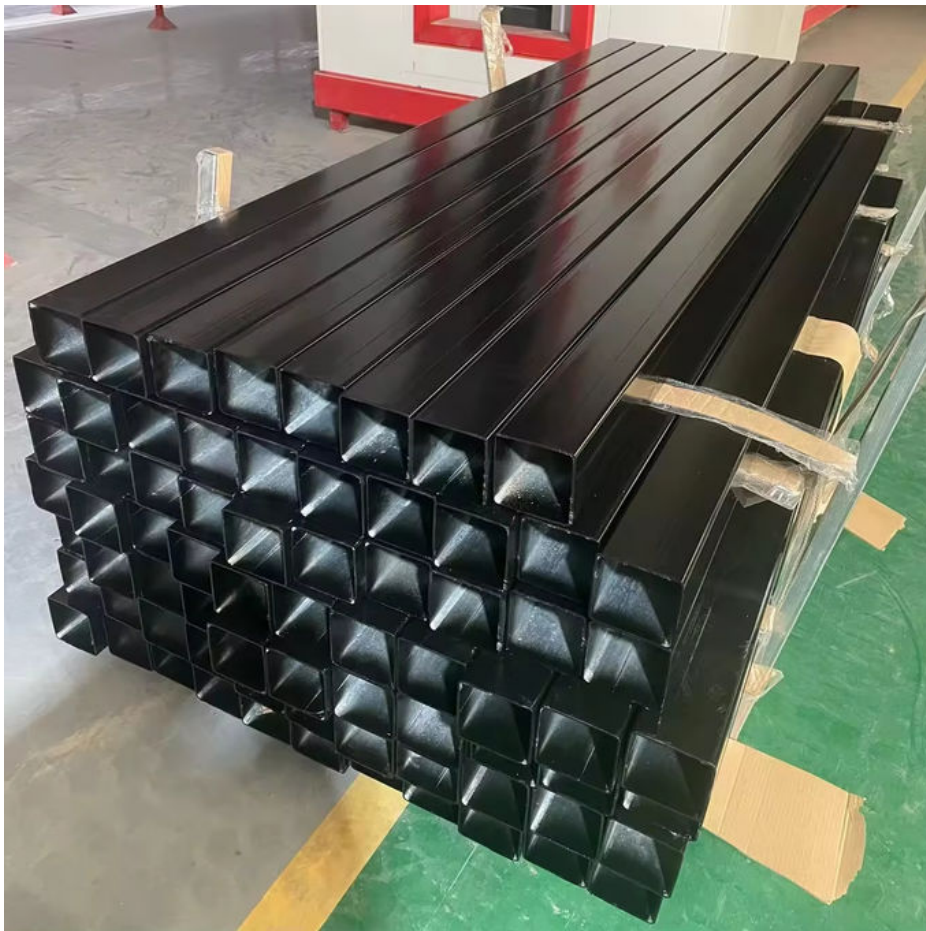

Standard aluminum profiles

Standard extruded aluminum profiles

LED aluminum profiles

#### Technical Parameters:

Parameter	Description
Color Available	Silver, Bronze, Champagne, Matte, Natural for anodizing, RAL for powder coating
Production Process	Extrusion, Cutting, Drilling, Milling, Etc.
Surface Treatment	Mill finish, anodized, powder coated, electrophoresis, sand blasting etc. PVDF coating, wood grain painting, matted, polishing bright
Shape	Customized
Colour	All Kind
Features	Lightweight, Strong, Corrosion-resistant
Width	Customized
Thickness	Customized

### Applications:

The Defender Aluminum profiles, made of Alloy 6063/6061/6005/6060, T5/T6, are high-quality standard extruded aluminum profiles that are widely used in various industries. The CE ISO/IS90001 certification ensures the product's quality, and the place of origin is Shandong, China. The minimum order quantity is 1t, and the price ranges from 3,000.00 \$ for 1-19t to 2,000.00 \$ for more than 1000t. The supply ability is 2500 Ton/Tons per Month, and the delivery time is 10days. The packaging details include three layers of protection, which are blank protective film, heat shrink film or Kraft paper, and customized packing according to customers' requirements. The product is lightweight, strong, and corrosion-resistant, and it is anodized to improve its surface treatment.

The Defender Aluminum profiles have various applications in different occasions and scenarios. In the construction industry, they are used as standard aluminum profiles for windows, doors, curtain walls, and other building structures. They can be cut, drilled, welded, and assembled easily, making them ideal for customized designs. The anodized surface treatment enhances their durability and aesthetics, making them suitable for both indoor and outdoor use.

In the transportation industry, the Defender Aluminum profiles are used as standard extruded aluminum profiles for trains, buses, and other vehicles. Their lightweight and strong properties make them ideal for reducing fuel consumption and improving the safety and comfort of passengers. They can also be used for luggage racks, handrails, and other interior and exterior parts.

In the machinery industry, the Defender Aluminum profiles are used as standard extruded aluminum profiles for various equipment and machines. Their corrosion-resistant property ensures their longevity and performance, while their flexibility allows them to be used in different shapes and sizes. They can be used for frames, supports, covers, and other parts that require high precision and stability.

In the electronics industry, the Defender Aluminum profiles are used as standard extruded aluminum profiles for electronic enclosures, heatsinks, and other components. Their thermal conductivity and heat dissipation properties make them suitable for managing the temperature and preventing damage to sensitive electronic devices. They can be anodized in different colors and textures to match the design and branding of the products.

The Defender Aluminum profiles, with customized length and shape, are versatile and reliable products that can meet the diverse needs of different industries. Their standard extruded aluminum profiles offer high quality and consistency, while their anodized surface treatment enhances their aesthetics and durability. Whether in the construction, transportation, machinery, or electronics industry, the Defender Aluminum profiles are an excellent choice for creating high-performance and cost-effective solutions.

## Support and Services:

Our aluminum profiles product has a dedicated technical support and services team available to assist customers with any questions or issues they may encounter. Our team is highly knowledgeable and experienced in the use and application of aluminum profiles and can provide guidance on product selection, installation, and maintenance. We offer product training and education sessions to help customers maximize the potential of our aluminum profiles and ensure they are being used correctly and safely. Our team can also provide custom solutions and design services to meet the unique requirements of each customer. In addition to technical support, we offer a range of services to ensure a smooth and successful project implementation. This includes project management, logistics, and on-site installation assistance. We take pride in providing exceptional customer service and strive to ensure our customers are completely satisfied with their experience. Please do not hesitate to contact our technical support and services team for any assistance you may need with our aluminum profiles product.

## Packing and Shipping:

Product Packaging:

Our aluminum profiles are packaged carefully to ensure they arrive in pristine condition. Each profile is individually wrapped in a protective layer, then placed in a sturdy cardboard box with additional cushioning material to prevent any damage during shipping.

Shipping:

We ship our aluminum profiles to customers worldwide using reliable and efficient shipping companies. Our standard shipping method is ground transportation, but we also offer expedited shipping options for urgent orders. Shipping costs vary depending on the destination and the size of the order.

## FAQ:

**Q: What is the brand name of the Aluminum profiles?**

A: The brand name of the Aluminum profiles is Defender.

**Q: What are the models available for the Aluminum profiles?**

A: The models available for the Aluminum profiles are Alloy 6063/6061/6005/6060, T5/T6.

**Q: What certifications does the Aluminum profiles have?**

A: The Aluminum profiles have CE ISO/IS90001 certification.

**Q: What is the minimum order quantity for the Aluminum profiles?**

A: The minimum order quantity for the Aluminum profiles is 1 ton.

**Q: What is the price of the Aluminum profiles?**

A: The price of the Aluminum profiles is as follows:

1 - 19 t 3,000.00 \$

20 - 99 t 2,600.00 \$

100 - 999 t 2,400.00 \$

>= 1000 t 2,000.00 \$

**Q: What is the supply ability of the Aluminum profiles?**

A: The supply ability of the Aluminum profiles is 2500 Ton/Tons per Month.

**Q: What is the delivery time for the Aluminum profiles?**

A: The delivery time for the Aluminum profiles is 10 days.

**Q: What are the packaging details for the Aluminum profiles?**

A: The packaging details for the Aluminum profiles are as follows:

1. Expose surface: Packed with blank protective film or customized
2. Outside protection: Heat shrink film to cover and protect. / Kraft paper to use.
3. Packed according to customers' requirement. 9~11tons/20'GP container , 20~28tons/40'HQ container.
