

## Customized Thickness Anodized Aluminum Profiles For Doors In RAL Powder Coated Coating

### Our Product Introduction

for more products please visit us on [alumfencing.com](http://alumfencing.com)

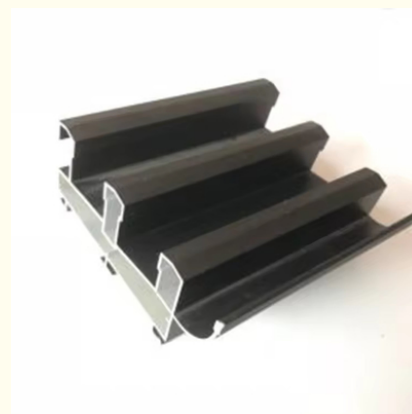

#### Basic Information

- Place of Origin: shandong china
- Brand Name: Defender
- Certification: CE ISO/IS90001
- Model Number: Alloy 6063/6061/6005/6060, T5/T6
- Minimum Order Quantity: 1t
- Price: consult
- Packaging Details: 1. Expose surface: Packed with blank protective film or customized 2. Outside protection: Heat shrink film to cover and protect. / Kraft paper to use. 3. Packed according to customers' requirement. 9~11tons/20'GP container , 20~28tons/40'HQ container.
- Delivery Time: 10days
- Supply Ability: 2500 Ton/Tons per Month

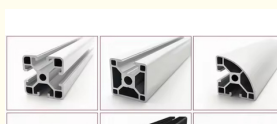

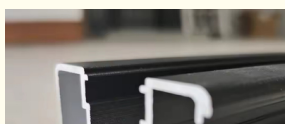

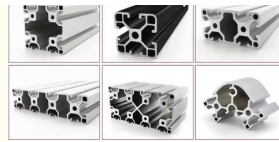

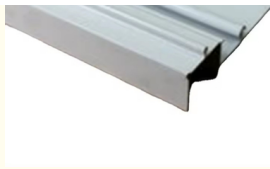

#### Product Specification

- Usage: Construction, Industrial, Transportation, Etc.
- Product Category: Aluminum Profiles
- Length: Customized
- Shape: Customized
- Surface Treatment: Anodized
- Colour: All Kind
- Surface Treatment: Mill Finish, Anodized, Powder Coated, Electrophoresis, Sand Blasting Etc. PVDF Coating, Wood Grain Painting, Matted, Polishing Bright
- Color: Silver
- Highlight: customized anodized aluminum profiles, customized extrusion aluminum profiles, anodized extrusion aluminum profiles

## Product Description

### Product Description:

Surface treatments for our extrusion aluminum profiles include mill finish, anodized, powder coated, electrophoresis, sand blasting, PVDF coating, wood grain painting, matted, polishing bright, and more. This variety of surface treatments allows our customers to choose the perfect finish for their project, whether it requires a sleek, modern look or a more rustic feel.

Our custom extruded aluminum profiles are produced using a process of extrusion, cutting, drilling, milling, and other techniques to ensure that each profile is precisely crafted to meet the needs of our customers.

Our aluminum profiles are primarily available in a silver color, which is a popular choice for many construction and industrial projects.

However, we can also provide profiles in other colors upon request.

At our company, we pride ourselves on providing high-quality extrusion aluminum profiles that are durable, long-lasting, and can withstand the demands of a range of industries and applications.

Whether you need custom extruded aluminum profiles for a construction project, industrial application, or transportation need, our team is here to help. Contact us today to learn more about how we can meet your specific aluminum profile needs.

### Features:

Product Name: Aluminum profiles

Usage: Construction, Industrial, Transportation, Etc.

Length: Customized

Shape: Customized

Section Shapes: I, U, T, C, Z, L, H, square, round, flat, hollow, t-slot, and other complicated shapes by custom design.

Production Process: Extrusion, Cutting, Drilling, Milling, Etc.

Features: led aluminum profiles, standard extruded aluminum profiles, custom extruded aluminum profiles

### Technical Parameters:

Product Attribute	Value
Usage	Construction, Industrial, Transportation, etc.
Product Category	Aluminum profiles
Shape	Customized
Colour	All kind
Surface Treatment	Anodized
Production Process	Extrusion, Cutting, Drilling, Milling, etc.
Material	Aluminum Alloy
Features	Lightweight, Strong, Corrosion-resistant
Thickness	Customized
Width	Customized

## Applications:

Our aluminum profiles have multiple applications and scenarios, and can be used in various industries. Some of the most popular applications are:

### Extrusion Aluminum Profiles

Our aluminum profiles are perfect for extrusion purposes. They are well-suited for industrial use, and their unique properties make them ideal for use in structures that require high strength and durability. These profiles can be used in the construction of buildings, bridges, and outdoor structures, among other things.

### Standard Aluminum Profiles

Our standard aluminum profiles are easy to assemble and have a high degree of flexibility. They can be used in the manufacturing of machinery, equipment, and other products. They are designed to be used in various industries, including automotive, aerospace, and medical.

### LED Aluminum Profiles

Our LED aluminum profiles are made specifically for LED lighting. They are designed to protect the LED lights from damage and provide a sleek and modern look. These profiles are perfect for use in homes, hotels, restaurants, and other commercial spaces.

Our anodized aluminum oxide profiles for photo frames and aluminum glass profiles are perfect for use in the manufacturing of photo frames and glass. These profiles come in a variety of colors, including Silver, Bronze, champagne, Matte, and Natural for anodizing, and RAL for powder coating. The shape of our aluminum profiles is customized to fit the specific needs of our customers. Our surface treatment includes mill finish, anodized, powder coated, electrophoresis, sand blasting, PVDF coating, wood grain painting, matted, and polishing bright.

## Support and Services:

Our Aluminum profiles product technical support team is available to assist you with any questions or issues you may have. Our team is knowledgeable and experienced in all aspects of Aluminum profiles, from design to installation. We offer a variety of services including product troubleshooting, installation guidance, and maintenance support. Our technical support team is available via phone, email, or online chat to answer any questions you may have. We also provide extensive documentation and resources on our website to help you troubleshoot any issues you may encounter. In addition to technical support, we also offer a range of services to help you get the most out of your Aluminum profiles. These services include design assistance, customization options, and product training. If you require any assistance with your Aluminum profiles product, please don't hesitate to contact our technical support team. We are committed to ensuring that our customers have the best possible experience using our products and services.

## Packing and Shipping:

### Product Packaging:

The Aluminum profiles are packed in sturdy wooden crates to ensure protection during transportation.

Each crate is properly labeled with product information and handling instructions.

Inside the crates, the profiles are neatly stacked and secured with straps to prevent any shifting or damage.

### Shipping:

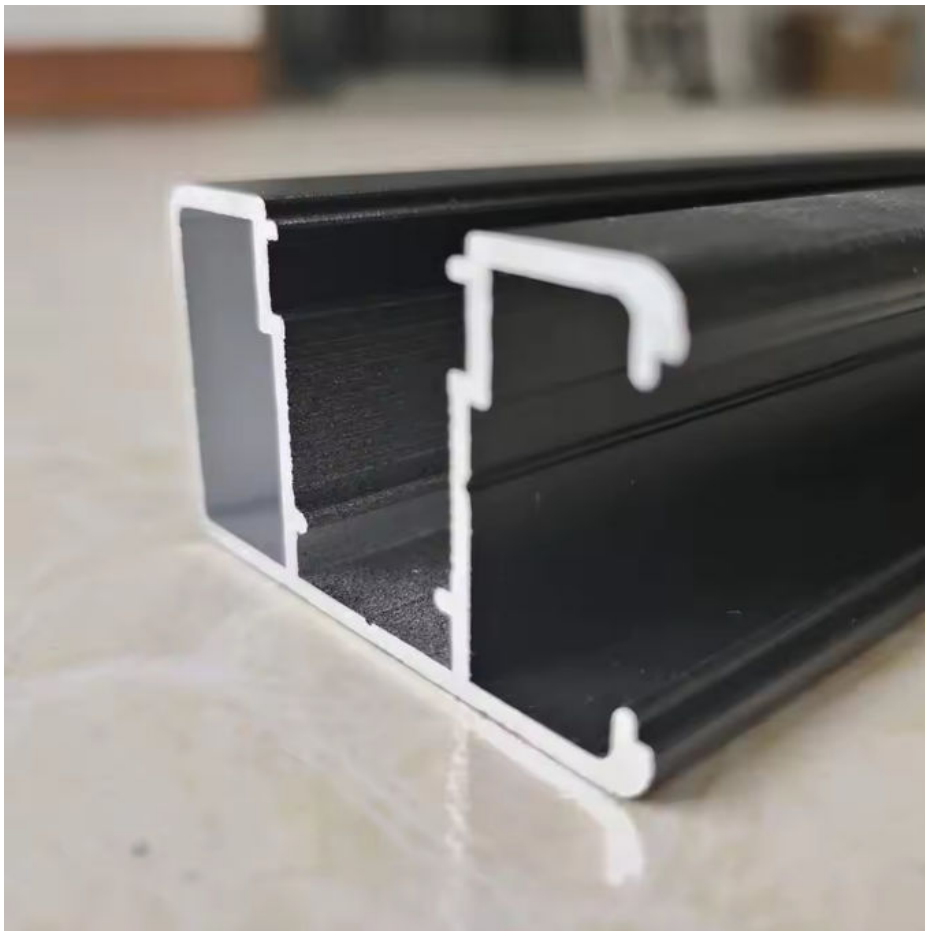

We offer worldwide shipping for our Aluminum profiles.

Shipping fees may vary depending on the destination and quantity of the order.

Our shipping team will coordinate with the customer to arrange the most suitable shipping method and delivery schedule.

Delivery times may vary depending on the shipping method and destination.

Once the order is shipped, the customer will receive a tracking number to keep track of the shipment status.

#### **FAQ:**

**Q: What is the brand name of the aluminum profiles?**

A: The brand name of the aluminum profiles is Defender.

**Q: What is the minimum order quantity for the aluminum profiles?**

A: The minimum order quantity for the aluminum profiles is 1 ton.

**Q: What is the delivery time for the aluminum profiles?**

A: The delivery time for the aluminum profiles is 10 days.

**Q: What is the supply ability for the aluminum profiles?**

A: The supply ability for the aluminum profiles is 2500 Ton/Tons per month.
