Product Description

Product Description:

Looking for a decorative metal fence panel to add a touch of elegance to your garden or outdoor space? Our steel fence product is the perfect solution. Made from high-quality aluminum, this fence is not only durable and long-lasting but also lightweight, making it easy to install and maintain.

With customizable height options, you can choose the perfect size to fit your needs and ensure maximum privacy and security for your property. Whether you're looking to create a barrier around your garden or simply want to add a decorative touch to your outdoor living space, our steel fence is the perfect solution.

Featuring a powder-coated surface, this fence is resistant to rust and corrosion, ensuring it will look great for years to come. Plus, with an easy assembly process, you can have your new fence up and ready to go in no time.

Our steel fence product is designed with a straight, modern look that will complement any outdoor aesthetic. Whether you're going for a contemporary vibe or prefer a more traditional look, this fence is versatile enough to fit any style.

In addition to the fence panels themselves, we also offer a variety of garden steel fence accessories to help you complete your project with ease. From post caps to gate hardware, our accessories are designed to work seamlessly with our fence panels and ensure a professional, finished look.

So why wait? Add a touch of elegance to your outdoor space with our high-quality steel fence product. With customizable height options, a powder-coated surface, and easy assembly, this fence is the perfect choice for any homeowner looking to upgrade their outdoor living space.

Applications:

The Defender steel fence is made from alloy 6063/6061/6005/6060, T5/T6 which gives it high strength and durability. It has been certified by CE ISO/IS90001 and comes from Shandong, China. The minimum order quantity is 10m and the price is available on consultation.

The product is suitable for a range of application occasions and scenarios. It is perfect for residential properties, commercial properties, public spaces, and industrial areas. The steel fence can be used to enclose gardens, patios, parking lots, and playgrounds. It can also be used to protect factories, warehouses, and other industrial buildings.

The Defender steel fence is highly versatile. It can be customized to meet the specific needs of each application. It can be designed to fit

any height requirement and can be powder coated in any color to match the surrounding environment. The product also has acoustic properties, making it an ideal solution for noise reduction in busy areas.

Another advantage of the Defender steel fence is its branding and personalization options. The fence can be personalized with logos, messages, and other branding elements to promote a business or organization. It can also be used to display artwork or other decorative elements.

The steel fence can also be used to create lighting effects. It can be fitted with lights to illuminate the surrounding area and enhance the aesthetic appeal of the property. The product is low maintenance, making it an ideal solution for busy areas where regular cleaning and upkeep may not be possible.

The Defender steel fence is delivered in a wooden box and has a supply ability of 7 days. The delivery time is 15 days. The product is finished with a powder coating that provides an extra layer of protection against the elements. Its durability and low maintenance make it a smart investment for any property owner looking to enhance their security and safety measures.

Overall, the Defender steel fence is a reliable and effective solution for a wide range of application occasions and scenarios. Its high strength and durability, customization options, and low maintenance make it a popular choice for residential, commercial, and industrial properties.
