Basic Information

- Place of Origin: shandong china
- Brand Name: Defender
- Certification: CE ISO/IS90001
- Model Number: Alloy 6063/6061/6005/6060, T5/T6
- Minimum Order Quantity: 10 pieces
- Price: \$22.00 - \$25.00
- Packaging Details: Each profile pasted by protection plastic film, a bundle profiles wrapped up by compound paper
- Delivery Time: 15-20 days after deposit payment received
- Payment Terms: L/C, D/A, D/P, T/T
- Supply Ability: 20000 Piece/Pieces per Month

Product Specification

- Easy To Install: Yes
- Product Advantages: 1. Aluminum Alloy Has Good Mechanical And Corrosion Resistance Properties In Its Natural State, Which Can Fully Meet The Anti-corrosion Control Requirements As A Material For Villa Doors And Guardrails. Long Lifespan, Maintenance Free, Rust Free, Safe And
- Capacity: 5000 Ton Per Month
- Durability: High
- Shape: Rectangular
- Maintenance: Low
- Characteristic: Strong, Stylish, Durable, Corrosion-resistant
- Size: Customizable

Product Description:

Our Aluminum Garden Screen is designed to meet the highest standards of aesthetics and corrosion resistance. Style and color are matched according to customer preferences, and aesthetics are in line with the overall decoration style of current customers. The aluminum alloy used in our screens has good mechanical and corrosion resistance properties in its natural state, which can fully meet the anti-corrosion control requirements as a material for villa doors and guardrails. It has a long lifespan, is maintenance-free, rust-free, safe, stable, and not easy to rust after long-term use. This makes it the perfect material for creating villa doors and community guardrails. One of the biggest advantages of our Aluminum Garden Screen is its excellent hot extrusion performance. It can be made into various complex shaped hollow and solid profiles according to the best mechanical structure and appearance process requirements. This not only improves the mechanical properties of equal amounts of materials but also increases the practicality and decoration of the product. It can be truly customized according to the customer's own needs, and there are many styles and colors available for customers to choose from.

The structural strength of aluminum alloy is high, and it is less than one-third of the mass of steel, which increases the overall load-bearing capacity of the building. Combined with various performance advantages such as good toughness and weldability, our Aluminum Garden Screen is the ideal choice for creating a strong and durable screen for your home or garden.

Our Aluminum Garden Screen has excellent surface treatability, adhesion fastness, and surface texture. This allows for multiple surface treatment options and is stable and durable, making it possible for products to meet personalized, diverse, and different aesthetic needs in terms of color and appearance. With our aluminum screen extrusions, you can create a screen that is not only functional but also adds a touch of elegance and style to your home or garden.

Choose Gu Meilvyi for all your Aluminum Garden Screen needs. Our products are of the highest quality and are designed to meet the needs and preferences of our customers. Contact us today to learn more about our Aluminum Garden Screen and how we can help you create the perfect screen for your home or garden.

Outdoor metal aluminum garden screen is a perfect solution for those who need durable and weather-resistant screens for their garden or pool area. The aluminum screen extrusions are customizable in size and shape, and they come in a silver color. The product advantages include high versatility, excellent surface treatability, and high structural strength. The screens can be used for windows, doors, and screens, and they are long-lasting, maintenance-free, and rust-free.

Applications:

The Aluminum Screen Extrusions are ideal for creating privacy screens, garden dividers, and outdoor enclosures. They are perfect for use in residential and commercial applications, and can be customized to fit any space. The screens are available in silver, which is perfect for matching with any decor style. The aesthetics of the screens are in line with the overall decoration style of current customers, ensuring that they will blend seamlessly into any environment.

The Outdoor Metal Aluminum Garden Screen is easy to install, and is weather-resistant, ensuring that it will last for years to come. The screens are also CE ISO/IS90001 certified, ensuring that they meet the highest standards of quality and safety. The Aluminum Screen Extrusions can be ordered in quantities as low as 10 pieces, making them a great choice for both small-scale and large-scale projects. The Aluminum Screen Extrusions are made in Shandong, China, and have a supply capacity of 20000 pieces per month. They are priced between \$22.00 and \$25.00 per piece, and can be paid for using L/C, D/A, D/P, or T/T. The delivery time for the screens is 15-20 days after deposit payment is received, and they are packaged with each profile pasted by protection plastic film, and a bundle profiles wrapped up by compound paper.

The Aluminum Screen Extrusions are customizable in size, ensuring a perfect fit for any space. They are also capable of handling 5000 tons per month, making them a great choice for large-scale projects. The screens are perfect for use in residential and commercial applications, and can be used to create a variety of outdoor living spaces.

In summary, the Aluminum Screen Extrusions from Defender are the perfect solution for creating a private, decorative, or pest-free outdoor space. They are customizable, easy to install, and weather-resistant, ensuring that they will last for years to come. Order now and turn your outdoor living space into a beautiful oasis.
